

Vision Industries LLC

COMPANY PROFILE

YOUR PARTNER IN
CUSTOMIZED METAL FABRICATION
& POWER SOLUTIONS

www.visionindustriesllc.com

WELCOME TO VISION INDUSTRIES LLC.

Vision Industries LLC empowers UAE clients with **precision metal fabrication** and **structural steel works** that drive efficiency, durability, and seamless project success. From custom Stainless Steel, Mild Steel, and Aluminum structures to reliable generators and enclosures, our expertise turns your vision into high-impact reality.

Our advanced facility is equipped with state-of-the-art machinery—including CNC laser cutters, CNC press brakes, pipe rolling equipment, certified welders, and an in-house powder coating plant—enabling us to execute complex projects on tight deadlines without compromising on quality.

Benefit from 30 years CEO-led expertise for risk-free, rapid-turnaround custom solutions at Vision Industries LLC.

Primary Activities:

- Specialized Precision Metal Fabrication (Stainless Steel, Mild Steel, Aluminum)
- Structural Steel Fabrication & Erection
- Engineering Steel Structures
- Power Solutions (Diesel/Petrol Generators, ATS Panels, Switchgear, Soundproof Canopies, Fuel Storage Tanks)
- Electrical Switchgear & Control Panel Manufacturing Unlock Your Project Potential

Trust Our Proven Edge

ISO 9001:2015 certified with full material traceability and HSE compliance, we serve top clients including DEWA, SEWA, Expo City Dubai, Sobha Reality, DAMAC properties, Azizi, Binghatti, Ellington Properties, Rak Properties to name a few.

Customer Satisfaction

Over 10,000 satisfied customers and hundreds of annual projects highlight our reliability in UAE competitive metal sector. Our durable products boost efficiency whether they are structural elements or power systems.

OUR MISSION

Our mission is to achieve excellence in every aspect, from product development to customer service. We are guided by our core values – innovation, dedication to quality, and continuous improvement – to consistently meet and exceed the expectations of our customers, employees, and stakeholders.

OUR VISION

With a relentless focus on customer satisfaction and employee well-being, we aim to be the partner of businesses and communities worldwide, shaping a more sustainable and prosperous world for generations to come.

CLIENT VALUE EDGE

1

DEEP SECTOR EXPERTISE

Our 30+ years of leadership experience ensures complex projects are handled with seasoned insight, minimizing risks and optimizing design.

2

RAPID TURNAROUND

Optimized internal workflow and advance machinery allow us to deliver high-quality custom orders faster than industry standards.

3

ENGINEERING & CAD SERVICES

Our team of Civil, Structural & Mechanical Engineers provides 3D modeling, certified shop drawings, and CAD review to ensure fabrication feasibility and project integrity, preventing costly mid-production changes.

4

ON-SITE FABRICATION & MOBILE INTEGRATION

Our mobile team delivers rapid, high-precision onsite fabrication and installation for custom structures with minimal site disruption.

OUR EXPERTISE

- **Design & Engineering**
Structural Design, Structural Calculation, Integrated Shop drawing and BIM modeling
- **Structural Steel Fabrication**
Structural frames, Mezzanine Floor Decks, Modular structures, Ware Housing Sheds, Porta cabins, industrial platforms, cable trays, Industrial racks, porta cabins,
- **Cladding & Facades**
Aluminum cladding, Building exterior metalwork, aesthetic customization, protective facades
- **Outdoor Living**
Gazebos, pergolas, patio covers, leisure spaces
- **Creative Structures**
Decorative Dividers, Custom Metal Hanging chandeliers, 2D metal sculptures, 3D Hollow Sculptures
- **Vertical Structures**
Staircases, railings, cat ladders designed for safety compliance and structural integrity
- **Access & Security**
Automated metal gates, motorized systems, entry doors, traffic control bollards, access management systems
- **Metal Furniture & Fixtures**
Stainless steel workstations, filter stands, lifestyle furniture, custom fit-outs
- **Power Solutions**
Diesel, petrol, and reefer generators, ATS panels, switchgear, soundproof canopies, Integrated fuel storage tanks
- **Cabinets & Enclosures**
Electrical enclosures, control panels, equipment protection systems

MANUFACTURING CAPABILITIES

1. Advance Design Engineering

In-house design experts leverage high-fidelity 3D modeling and proactive CAD validation to transform complex concepts into build-ready blueprints.

2. Heavy Duty Laser Cutting

Industrial CNC Fiber Laser Cutting Machine for high-tolerance cutting of Stainless Steel (up to 12mm), Aluminum, and Mild Steel. Specialized in rapid prototyping and high-volume production runs.

3. Precision Bending

Advanced hydraulic press brakes for accurate forming of complex shapes. **CNC Electro-Hydraulic Press Brake/Bending Machine** for precise and consistent sheet metal forming. **Sheet Bending Method** for creating accurate bends and complex sheet metal profiles. **Hydraulic 3-Roller Profile** and Pipe Bending Machine for efficient and precise bending of pipes, tubes, and structural profiles. **Benchtop Pillar Drill Press** for accurate drilling and fabrication applications.

4. Certified Welding

Dedicated welding bays for TIG, MIG, and ARC welding, employing certified welders to meet international quality standards.

5. Finishing & Coating

In-house capabilities for powder coating, and protective painting, supported by an Industrial Powder Coating Curing Oven, professional Paint Booth, and Wet Paint application for durable, long-lasting finishes and superior aesthetic quality.

WHY CHOOSE US

1 RISK MITIGATION

Certified shop drawings eliminate errors before fabrication.

2 TURNKEY ACCOUNTABILITY

We manage the entire lifecycle, from 3-D modeling to onsite integration.

3 PROVEN DURABILITY

We look forward to transforming your next project into a benchmark of engineering excellence.

Safety & Compliance

We design and manufacture solutions that meet applicable OSHA and UAE safety standards, incorporating ergonomic and practical designs for commercial and industrial environments across the UAE. We ensure reliable performance, enhanced safety, and cost-effective solutions built for long-term use.

Regulatory Alignment:

Fabricated products align with UAE municipal standards, Civil Defence requirements (for fuel storage / canopies), and "Make it in the Emirates / UAE Vision 2031" initiatives.

Critical Power & Infrastructure

- Precision-engineered cabinets for electrical, telecom, and fire systems.
- Supply and integration of generators, ATS / Switchgear panels, and fuel storage.
- Custom weather and soundproof canopies for equipment longevity.

Site Compliance

- Full HSE compliance, trained installation crews, and site permit coordination.
- Full Quality Control sign-off, weld testing, leak checks, and ITP compliance.

QUALITY COMPLIANCE & SAFETY

In the industrial sector, reliability isn't just a goal – it is the foundation of operational integrity. When equipment or processes fail, the ripple effects include safety risks, massive financial losses, and damaged reputations. By integrating a Quality Control System (QCS) into every heartbeat of the production cycle, you transform reliability from a vague promise into a measurable standard.

1

ISO CERTIFIED

Certified for Quality Management Systems, ensuring consistent quality in all processes.

2

HEALTH, SAFETY & ENVIRONMENT (HSE) COMPLIANCE

Strict adherence to local UAE and international safety protocols to protect our team and project integrity.

3

MATERIAL TRACEABILITY

Complete traceability systems for all sourced raw materials (SS, MS, Aluminum) to verify composition and origin.
